

## INDUSTRY SOLUTIONS

### Construction

#### BRIDGING INFORMATION PROCESSES

iBridge Group provides Document Management / Content Management Solutions to construction and engineering markets. We provide the industry leading technology to streamline your business processes, improve customer service, reduce costs, and to help meet your compliance requirements. We understand that sharing, collaboration and managing of project files, CAD drawings, and client and partner correspondence are vital to your organization.

“Increased productivity from project managers, more accurate timelines...”

In delivering high-quality experiences across a variety of channels and devices, we streamline your processes and minimize costs at every level. In the construction business, this means increased productivity from project managers, more accurate timelines and improved management of equipment and people.
