BRIDGING INFORMATION PROCESSES

iBridge Group provides Document Management / Content Management Solutions for the K-12 School Districts and Higher Education Institutions. We provide the industry leading technology to streamline your business processes, improve customer service, reduce costs, and to help meet your compliance requirements.

“Increase your document control and information sharing among students, parents and administrative staff.”

Educational institutions face a multitude of challenges generated by the enormous volume of emails as well as paper and electronic documents handled every day. Such documents include enrollment papers, applications, parent and student correspondence, student health records, accounting, personnel files, special education records, rosters, transcripts, testing results, and many more. Increase your document control and information sharing among students, parents and administrative staff.

RECOGNIZED BENEFITS

- Deploy a central repository with the required security and access control
- Create a secure online portal for students, teachers, parents, and administration parents to access resources and information
- Automate business processes through intelligent forms submission and approval
- Reduce paper, copy and storage costs
- Provide complete document security and disaster recovery
- Apply retention rules to documents to comply with regulations and reduce storage costs
- Facilitate collaboration from remote sites by providing online access to information and resources
- Track user and document activity performed in the system through auditing features
- Help compliance with the Family Education Rights and Privacy Act (FERPA), Children’s Internet Protection Act (CIPA), Health Insurance Portability and Accountability (HIPAA)
