BRIDGING INFORMATION PROCESSES

iBridge Group provides Document Management / Content Management Solutions to Healthcare facilities and providers. We provide the industry leading technology to streamline your business processes, improve customer service, reduce costs, and to help meet your compliance requirements.

We provide healthcare organizations with an efficient and highly secure solution to manage patient and other transactional records. Providers need to digitize and automate patient information forms, EOB's for second carrier submission, referral forms, collection documents, and charge tickets in one central repository while ensuring security.

“...allowing secure and accessible digitized medical records.”

Healthcare facilities are required to protect patient privacy and prevent unauthorized access to any confidential patient information to meet HIPAA requirements while automating the storage and access to records. iBridge provides the solutions to meet these business obligations and allowing secure and accessible digitized medical records.

RECOGNIZED BENEFITS

- Deploy a central repository with the required security and access control
- Automate business processes through intelligent forms submission and approval
- Apply retention rules to documents to comply with regulations and reduce storage costs
