

TRANSPORTATION: iBridge Datasheet

## INDUSTRY SOLUTIONS

### Transportation

#### BRIDGING INFORMATION PROCESSES

iBridge Group provides Document Management / Content Management Solutions to the transportation sector. We provide the industry leading technology to streamline your business processes, improve customer service, reduce costs, and to help meet your compliance requirements.

We provide transportation companies with technology solutions; whether it is to improve fleet maintenance, automate routing, simplify scheduling, increase the quality of reporting and tracking systems, or to maximum vehicle utilization, iBridge Group provides solutions that can optimize your organization.

### “Answering customer or vendor inquiries within seconds...”

Along with employee records, transportation departments must be at the ready to supply record of shipping/warehouse receipts, Material Safety Data Sheets (**MSDS**), Driver's Logs, copies of Commercial Drivers Licenses (**CDL**), reports, Emails, and more. All of these documents can be archived in one central, secure database for quick and easy access with just a few keystrokes. Your company can eliminate time routinely wasted tracking down files while answering customer or vendor inquiries within seconds instead of days or weeks.

#### RECOGNIZED BENEFITS

- Deploy a central repository with the required security and access control
- Reduce costs associated with DOT requests
- Reduce paper, copy and storage costs
- Automate business processes through intelligent forms submission and approval
- Apply retention rules to documents to comply with regulations and reduce storage costs
- Track user and document activity performed in the system through auditing features
- Provide online access of information and resources to branch offices, remote workers, partners, and vendors.
- Improve Compliance with federal regulations in document storage and retrieval
